1 September 1949

d. About 100 troops carrying entrenching tools moved into the former Panzer Kaserne, KRAMPNITZ. The troops had come from the direction of DOEBARITZ.

2 September 1949

e. The former Artillerie Kaserne, NEDLITZ, was only lightly occupied by artillerymen. Repair work was done at the kaserne.

25X1A [REDACTED] Comment:

a. The report indicates that artillery units returned to POESDAM in late July and early August 1949 (upon completion of maneuvers in AMERGLADON ?). As the units were seen leaving the POESDAM railroad station towards NEDLITZ, it can be assumed that they were stationed in the Artillerie Kasernes south of "Nedlitzer Bruecke". Some troops from these kasernes had not returned by 2 September 1949.

25X1C b. The [REDACTED] motor vehicle numbering series were previously observed in these kasernes. The [REDACTED] series belongs to the 6th Gds Mecz Div (Cadre) and is therefore believed to have been misidentified.

25X1C

c. Col MARINOVSKI was reported by the same source to have been chief of the Group of Occupation Forces Germany Supply and Administration Division (APN 16 455) in July 1949. Col MARINOVSKI's office is located in the former Adolf Hitler Kaserne, his apartment at 25 Jaegerallee. A motor pool is said to be located in the former Garde Ulanen Kaserne (also called Hohnelohe Kaserne).

25X1C d. The [REDACTED] is assigned to a Soviet commercial enterprise in BERLIN.

+ according to previous reports, some small units of the Group of Occupation Forces Germany and the GMA are stationed in the kasernes which were reportedly occupied by only guard details.
